Recruiting Graduate Students
Fall 2013

LSU Superfund Research Program is an interdisciplinary environmental program and brings together researchers from the basic and biomedical sciences tackling a broad group of interconnected issues.

Big Research Team

- Louisiana State University
www.lsu.edu
- LSU Health Sciences Center in New Orleans
www.lsuohsc.edu
- LSU Health Sciences Center in Shreveport
www.lsuohscshreveport.edu

Students can enter the program through:

- Louisiana State University
- LSU Health Sciences Center in New Orleans
- LSU Health Sciences Center in Shreveport

Admission

Research
focus on

- Formation and stabilization of Environmentally Persistent Free Radicals and Pollutant-particle Systems; and
- Their impacts on respiratory and cardiac health.

More Information

- Visit our website: www.srp.lsu.edu
- Contact:
Robin L. McCarley, Training Core Leader
tunnel@lsu.edu; Tel: (225) 578-3239
- Barry Dellinger**, Program Director
barryd@lsu.edu; Tel: (225) 578-6759

Benefits for Students

- Opportunity to work on a new paradigm for the impact of particulates on human health
- Environment that fosters interdisciplinary training and educational opportunities
- PhD fellowships available
- Exposure to and training with cutting-edge physical and analytical science methods and instrumentation
- Opportunity to network with peers by participating at seminars, meetings and conferences
